

Matcee Artapiyatham

UX/UI Designer

[Portfolio](#) | [LinkedIn](#) | +66 95 419 1797 | matcee.artapiyatham@gmail.com | Bangkok, Thailand

PROFILE

UX/UI designer with four years of freelance experience and a computer science background. Combines user research, usability evaluation, and interface design to simplify complex workflows. Collaborates with engineers from requirements through design delivery.

EDUCATION

Chulalongkorn University

Bachelor of Science in Computer Science

Relevant Coursework: UX/UI design, Data Warehouse and Data Mining, Database System, Architecting on the Cloud

Bangkok

May 2025

GPAX 3.25

UX/UI EXPERIENCE

UX/UI Designer (Freelance)

Fastwork marketplace & direct clients · 5 projects delivered | Figma

Bangkok

Aug 2022 - Present

- Delivered UX/UI design for five client projects, from requirements definition and user research to high-fidelity interfaces and design handoff
- Translated user needs and business constraints into user flows, information architecture, and interface designs
- Refined designs through usability reviews and client feedback
- Collaborated with engineers to clarify specifications and address implementation constraints

PROJECT EXPERIENCE

Redesigning LMS Assessment Interfaces for Instructors (MyCourseVille)

University Capstone Project | Peer-reviewed paper accepted at TechDev2025

Bangkok

Sep 2024 - Jul 2025

- Conducted semi-structured interviews with nine instructors and think-aloud evaluations across eight tasks on the live platform and redesigned prototype, followed by interviews on the redesign
- Redesigned exam-creation and grading flows: prioritized the Save action, introduced Student View, and consolidated question analysis into a sortable ranking view with score distribution
- Evaluated the prototype against the live platform: SUS increased from 55.8 to 63.3; UEQ Dependability rose from 0.6 to 1.7 and clarity from 1.0 to 1.6. Results were mixed across other UEQ dimensions

ADDITIONAL EXPERIENCE

Database Administrator

Agoda Service Co., Ltd. | SQL (MSSQL), Grafana, Kibana

Bangkok

Jun 2025 - Present

- Built Grafana dashboards for MSSQL and Hyper-V metrics, selecting signals, thresholds, and display priorities to help on-call engineers assess system health and detect anomalies
- Investigated CPU, load, and timeout incidents using SQL query analysis, collaborating with database owners across teams to identify root causes

TECHNICAL SKILLS

UX & Design: UX Research, Usability Testing, User Flow, Information Architecture

UI & Prototyping: Wireframing, Prototyping, Layout, Typography, Visual Hierarchy

Tools: Figma, FigJam, HTML/CSS (basic), Adobe Photoshop, Adobe Illustrator, SQL (supporting)

Collaboration: Stakeholder communication, Cross-functional teamwork

DESIGN ACTIVITIES

- UX/UI Designer, Information System Development Department, Student Council, Chulalongkorn University
- UX/UI Designer, IT Department, Thinc. Club, Chulalongkorn University
- Graphic Designer, CUNEX, Chulalongkorn University
